Introduction

1. **Pass out student outline.**
2. **Introduction (Please Read):** Normally our firefighters come to our school and present to us in an assembly. Unfortunately, this year COVID 19 is not allowing for us to have assemblies. So the firefighters are doing their best to still teach us some important fire safety information and have created a video for us to watch as a class!
3. **Play the video with the link below:** Please stop the video when indicated to allow for enough time for the students to write their answers on the outline. If time allows and you are willing to have class discussion, please do so.

4. **Review and correct the student outline with the answer sheet provided.**
5. **Pass out and explain “homework.”** Students should share the “homework” with their parents. Students should complete both projects (checking smoke alarms and watching the close before you doze video) and either complete the homework online at the link provided on the homework sheet or turn in a hard copy at school. **KCFR will pick up the homework sheets during the 2st week of November so please have all completed homework turned into the office by the end of the 1st week of November.** KCFR will complete the drawing and deliver the scooter no later than Thanksgiving Break.
6. **Collect homework and turn into the secretary at the front office by Halloween.**
